Policies

Statistics will not display when the number of institutions contributing data is less than 5 (too few data). Statistics will also not display when one institution's data comprise more than 25% of the total (unbalanced data; only applicable if incumbent—rather than institutional average—salaries are selected). If fewer than 10 institutions have provided data for a position, statistics (particularly percentiles) may be poor estimates, and caution should be taken in their interpretation and use.

Graphics will not appear in analyses with fewer than 20 incumbents.
